Build your future piece by piece» project number: 2020-1-PL01-KA204-081703

## Our purpose

Build your future piece by piece aims to support educators, by raising and developing their skills and improving teaching methods and tools through effective use of innovative solutions.

The consortium will develop innovative activities based on the Building Based Upskilling (BBU) methodology.

## BuildIT partners objectives

**#BuildITproject**

- Providing **innovative educational tools** for adult educators: to ease learning process, to expand the competences of their trainees.
- Producing **brand-new models and educational resources** adapted to adult education.
- **Reshaping adult learning image:** attractive, accessible and usefull with innovative methods and to engaged learners.

# Our methodology

The design of a handbook, build on the innovative methodology of Building Based Upskilling. A new resource to **catch the attention of adult learners** into courses and **improve educators teaching method and skills**.

This handbook contains **innovative and interactive educational approaches**, based on using building blocks, puzzles and other materials from which one can create and build in order to conceptualize and visualize abstract concepts. It will be divided into twelve modules that will explain **how to develop the fundamental skills known as «transversal competences»**.

## Our target

### First group

**Professionals involved in adult education** with whom the innovative methodologies will be tested and validated to provide efficient tools according to their needs.

**NEETs and low skilled adults.**

### Second group

Adult educators will use the BBU methodology, to improve NEETs education skills and transversal competences, involve them and motivate them in their learning lessons, giving them more possibilities to enter the job market.
