A strategic partnership for adult education

MULTIPLIER EVENTS TO PRESENT THE RESULTS OF THE PROJECT

From June 2022 to September 2022, the consortium organised different multiplier events for different audiences in each country.

Different persons involved in the field of education, training, facilitation, had discovered the different steps of the project: how the consortium had created 12 strategic activities based on the BBU methodology, pilot phases and results of experimentation with targets (first group: professionals involved in adult education and second group: NEETs and low skilled adults).

According the time, some participants had testes some activities. The main feedback is very positive. BBU methodology seems interesting and relevant. They declared use it in future courses with audiences.
